Getting Down to Bed-Rock—Removed for Political Causes Only.

Assistant Secretary Jenks of the Interior Department Peremptorily Resigned—A Sensible Suggestion.

A Most Novel and Brilliant Society Event—The Chinese Indemnity Bill—Congressional.

Removed for Political Reasons.

WASHINGTON, May 14.—The report of the committee on post-offices and post-roads in the case of S. R. Davis, to be postmaster at Creston, Ia., vice L. C. Leed, suspended, is made public. The committee called for and received from the Postmaster-General all papers in the case.

It appears, the report says, "from papers and documents thus submitted to the committee, and from letters and papers communicated to it by the suspended officer and others, that there is nothing in the case calculated to place discredit on Mr. Leed, either as an officer or a man. The only complaints made against his administration of the office are rather to his credit than otherwise, inasmuch as they are based on his strict observance of the laws and regulations of the department. The case is one of suspension for political reasons. 'Offensive partisanship' is abundantly charged, and the nominee seems to have been elected on the basis of his political connections."

The nomination was reported favorably, Mr. Leed having expressed no wish to retain the office, but simply a desire that his character as an officer and a man should be protected.

The report in the case of W. E. Lewis, to be postmaster at Charleston, Ia., vice J. H. Stewart, suspended, is also made public. The committee obtained all the papers in the case, and says that they show it to be an instance of removal for offensive partisanship, there being in the papers nothing against Stewart as a man or officer. The committee is of the opinion that the "political man" is reported favorably.

A Peremptory Resignation.

WASHINGTON, May 14.—Assistant Secretary Jenks of the Interior Department has tendered his resignation, to take effect Saturday, the 16th instant. His resignation is peremptory, as Mr. Jenks is determined to sever his connection with the Department on that date. This action is necessitated by a desire on the part of Mr. Jenks to fulfill a promise made to the late John D. Dubois, the Pennsylvania lumber king, whose confidential adviser Mr. Jenks had been for many years; that upon the death of Mr. Dubois he would assume the same relations to the young nephew who inherits Mr. Dubois' estate. The official and personal relations between Secretary Jenks and Mr. Dubois have all along been mutually confidential and satisfactory, and under the circumstances, the Secretary will be compelled, reluctantly, to accept the resignation.

A Sensible Recommendation.

WASHINGTON, May 14.—Acting Secretary of the Treasury Fairchild yesterday sent a letter to the Speaker of the House in answer to a resolution requesting information regarding customs districts, in which he recommends the abolition of some customs districts and their consolidation with contiguous districts of more importance, where business justifies the employment of a collector. Nearly all of the districts recommended to be consolidated are those in which the expenses were greatly in excess of receipts in 1885. The districts in all are Alexandria, Va., Annapolis, Md., Petersburg and Richmond, Va. In the Alexandria district it costs \$1.07 to collect one dollar. It was in Annapolis, \$2.50; in Petersburg, \$9.55; in Richmond, \$12.75. The most expensive district is St. Marys, Ga., where it costs \$23.18 to collect one dollar.

A Most Novel and Brilliant Society Event.

WASHINGTON, May 14.—The "Kirk-mass" of the new National Theatre last night was the most novel and brilliant society event that has ever occurred at the National capital. About two hundred young ladies and gentlemen, representing the best and most fashionable society of Washington participated in a series of theatrical evolutions representing "the dances of nations."

After this exhibition there was a supper, and then general dancing began and was kept up until two o'clock in the morning.

President Cleveland, most of the members of the Cabinet, many Congressmen and their families and hundreds of the elite of the city were present, and filled every available seat in the theater.

The "Kirkmass" was for the benefit of the National Home for aged and infirm soldiers, and was a grand success, both socially and financially.

The Chinese Indemnity Bill.

WASHINGTON, May 14.—The Chinese Indemnity bill, which failed to pass the House yesterday during the morning hour, will be called up by the committee on foreign affairs on Tuesday next, that day having been assigned by the House for business presented by the committee on foreign affairs.

THE FORTY-NINTH CONGRESS.

(First Session.)

SENATE.

WASHINGTON, May 13.—Mr. Mitchell (Or.) offered a resolution, which was referred, requesting the Secretary of the Interior to suspend action of the Land office in all cases involving the rights of innocent purchasers of land after final proof and entry, and before issuance of patents, until Congress has legislated on the subject.

Mr. Frye called up the States Island Reclamation bill, but the Senate, by a vote of nineteen yeas and ten nays, decided to consider the bill until after the adjournment.

Mr. Frye then introduced a bill which will provide for the construction of a canal to connect the Mississippi and Missouri rivers, and to be known as the "Missouri Canal."

A new bill to be introduced for the purpose of providing for the construction of a canal to connect the Mississippi and Missouri rivers, and to be known as the "Missouri Canal."

A Japanese Novelty.

At the tabernacle on Tuesday evening, May 18th, the ladies of the Presbyterian church will give a social and Chinese-Japanese Bazaar, assisted by the famous Chinese students, Lung Don and Lee Foon, who bring with them rich Oriental costumes, such as are worn by the richer classes in the "Flowery Kingdom."

The students will appear magnificently dressed in silks and satins; they sing, use chopsticks, exhibit their skill in playing musical instruments, and give any desired information of the habits of their people, speaking in either English or Chinese language. There will be exhibited Chinese and Japanese articles, wondrous and works of art, painting, carving, charms, etc., etc. In connection with the entertainment, Chinese supper will be given, home ladies to handle all cash.

table will be lighted with Chinese tapers and lanterns.
